On behalf of the conference chairs and committees of 2019 Collaborative Conference on Materials Research (CCMR) meeting (<http://ccmr2019.org/>), **we confirm that you have agreed to present your research as an invited speaker at CCMR 2019, held at the Kintex in Goyang Gyeonggi, South Korea.**

Processing and properties of new generation boron carbide (B₄C) containing radiation shielding nano-composites

Your expertise and leadership will be very valuable contributions to the conference and help to attract other great scientists, speakers and young talents.

2019 CCMR conference will take place from 03rd to 07th June 2019 at the Kintex in Goyang Gyeonggi, South Korea. The CCMR conference series aims to provide interdisciplinary forum for the open communication in understanding physical, chemical, and biological materials and a variety of applications based on advanced materials of any compositions, and morphologies. We have participants with a good mix of scientists and engineers from different institutions worldwide. The meeting is well supported and welcomed in South Korea as well as by international scientific and business communities.

We are looking forward to your participation in the 2019 CCMR!

Yours truly,

Prof. Jihoon Lee

CCMR 2019 Conference Organizer
