7th April 2006

A Comparative view of CSR in Turkey
Dr. Melsa Ararat

Beirut, MDF5
Framework of analysis

Corporate behavior, influenced by values rooted in

- Societal Culture
- Organizational Culture

CSR related with

- Accountability towards stakeholders (transparency)
- Prudent governance (efficiency)

Discourse appears to signal a new form of co-operation between governments, business and society, Therefore: also a matter of balance of power
Carroll’s Construct of responsibilities
Note the debate on the whether CSR is voluntary

CSR

Philanthropic

Ethical

Legal

Economic

Moral obligations (expected and desired by the society)

Self interest (requested by the society)
TURKEY summary

35% observes unethical behavior, corruption is internalized
56% thinks ethical companies face unfair competition

- Country of dualities
- Strong state
- Long established capital market but low FDI
- Family ownership / business conglomerates
- Society
  - NGO framework
  - Cultural characteristic

Conclusion: Drivers for CSR will be institutional and exogenous
Research (2003)

Decision criteria

75% of managers give priority to economic responsibilities
19% of managers give priority to ethical criteria
7% of managers give priority to compliance with the laws

Perceptions of importance of stakeholders
75% Customers
50% Employees
21% Society

35% observes outright unethical behavior at work

Source: Ascigil
• 44% gives zekat to close relatives, people they know
• Vaqfs: 72% supports education
• Participation in NGOs very low
• 50 companies finance most of the CSO activities

Civil Society

• Depth and breadth of civic participation is low,
• Relations between CSO’s are weak, resource/capacity is limited
• Relations between CSO’s - State and Business are weak
• Practices of democracy and gender equality within CSO’s are weak

Source: TUSEV
Weakest aspects of CSO’s:

• Holding state and corporations accountable
• Responding to social interests

Source: TUSEV
Values of the Society/Ethics to be settled

92.6 % reconstruction of state
67.9 % Multinational companies and FDI

Majority expects only economic performance
General Drivers of CSR

1. Legal Framework
2. Market mechanisms
3. Social Pressure
4. Business norms/culture
5. Standards and agreements
6. Knowledge

Economic → Legal → Ethical
Environics International (2001)

Low-middle income countries
High income countries

Basis of opinion
Expectations

Adler and Boyacigiller (1995)

Developing Countries
Developed Countries

Weak infrastructure
Abundance of unskilled labor
Political in stability
Strong religious influences

Ronen and Shankar (1985)

Geographic Clusters (Near east) with Greece and former Yugoslavia
Hofstede’s classification (1980-1983)

- Power Distance (high)
- Uncertainty Avoidance (high)
- Individualism (low)
- Masculinity (low, close to the center)

Schwartz (1994)

- Conservatism (high)
- Hierarchy (high)
- Egalitarian Commitment (high)
- Harmony (high)
GLOBE Project (2001) - Kabasakal and Dastmalchian

- Gender egalitarianism
- Uncertainty avoidance
- Performance orientation
- Social collectivism
- Humane orientation
- Future orientation

-----------------------------
- In-group collectivism
- Power Distance
- Assertiveness

Kuwait
Qatar
Organizational Culture (Pasa, Kabasakal, Bodur 2001)

- Future Oriented
- Paternal (authoritarian → benevolent)
- Consultation
- Culture specific behaviors dominate universal influence behavior

In-group collectivism
Parent leader

Low future orientation
Low social collectivism
Drivers in Turkey

1. Rational Choices (research and management training)
2. Quality Management (EFQM)
3. MNs and FDI
4. Universities (training the future leaders)
5. Global NGOs
6. Global institution, multilateral agreements
7. Reconstruction of financial sector (CG debate)

Macroeconomic and Political Stability
What works

1. Company Law and capital markets regulations
   • Disclosure,
   • Political choice of stakeholder controls
2. Sectoral Roundtables
3. Education aiming at cognitive moral development
Our mission is to develop competent and confident individuals, enriched with the ability to reflect critically and independently, combined with a strong sense of social responsibility; and to contribute to the development of science and technology, as well as disseminating the knowledge created to the benefit of the community.
Civic Involvement Projects

• Together with 17 NGOs
• Disseminating to other universities

Encouraging students to be confident individuals with a sense of responsibility

*Children, human rights, environment, animal rights, women*
Announcement and Call for Papers

Bridging the Gap: Sustainable Environment

Part 1- Innovation and Diffusion of Environmentally Sound Technologies
Part 2- Globalization, Development and Environmental Management

The First UN Global Compact Academic Conference
The Role of Educational Institutions

• New research
• Agenda setting
• Capacity Building
• Educating the leaders of the future
• Bridging theory with practice
